

I Amarjeet Singh Dhami, got my treatment done from Dr. A.S. Cheema. (Cheema Dental Implant Centre). I am totally satisfied with the treatment.

I am 57 years old, I lost all my teeth, I was having problem in chewing food.

I got dental implants done computer guided Dental implants (teeth in an hour). There was no stitch, no cut and all the implants were in place in less than an hour.

I am happy, I can chew any thing I want. I feel more comfortable & confident.

AMAR SINGH

Dear Dr Cheema,

Thankyou for the way in which you treated me, knowing my nervous disposition you made me feel totally at ease. My phobia of dental treatment has now completely vanished. Again thankyou very much

warm regards

Tarjeet Sandhu.

Having dental treatment crosses every ones mind. When considering dental treatment is a very important decision in ones life and even more so when doing it abroad. When coming to Cheema Clinic I found the Staff friendly and welcoming. I visited many dentists to get an idea and it was Cheema Clinic that where I had my trust in. The high tech facilities and equipment and Harvard educated doctor and someone that believed in god was what made me choose Cheema Clinic. The time spent on the treatment was very slow + precise and there was no rush. I would recommend anyone is looking for a good dental clinic to choose Cheema.

Respect
